**Biography**

Bill Horrace is a Distinguished Professor of Economics, a Senior Research Associate in the Center for Policy Research, and a W.E.B. Du Bois Scholar at the National Institutes of Justice. His research interests include econometrics, production and efficiency analysis, peer-effects and strategic interactions, and crime and policing. He is an expert in the study of police racial profiling, having completed several studies of the issue in the City of Syracuse, NY over the last decade. Professor Horrace has published articles in leading economics and econometrics journals, most recently in *Journal of Econometrics* and *Review of Economics and Statistics*. He has received over $5 million in sponsored project grants at Syracuse University. He received his Ph.D. in economics from Michigan State University in 1996. Full Biography
